

Rising up from the tranquil & serene Nile, it stands proud as anything that is touched by the waters of the oldest & longest river in the world!!!

Guarded by a magic tree whose dominant branches bend over to kiss the Nile! Stories and legend being told, of a guardian who lives under it, watching over Ana Kato from all that is bad or evil.

A gateway into Gharb Soheil, the land of the Nubians, the walls of this unique house tell a wonderful story. A story of a people unchanged, by civilization. Whose culture, language and history have been unaltered and remain a mystery to outsiders.
